DETAILED ACTION

Allowable Subject Matter

The amendment filed on 10/8/2008 is sufficient to overcome the rejections made in the previous action. Therefore, all of the pending claims are allowable over the prior art. However, claims 22, 24-27, and 29 are newly rejected under 35 USC §101 as detailed below.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 22, 24-27, and 29 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claims recite "a computer program product" comprising a computer readable medium. The specification, on p. 17, para. 47, states that the computer readable medium may be a wireless connection. Therefore the claims refer to a signal per-se and are nonstatutory. Correction of the specification and/or claims is required.
